

Yesterday's meeting Agenda:

1. Introduction to the company and its values
2. Overview of the internship flow and expectations
3. Discussion on the Major Requirements of the internship
4. Detailed explanation of the tasks and projects you'll be working on

Internship Flow :-

This one-month internship is divided into two phases :

Phases 1 :- Week 1: Skills Test

Interns are assigned various tasks related to their domain.

The tasks serve as a skills test to assess their existing abilities and identify areas for improvement.

Interns are expected to complete the assigned tasks within the week.

Phases 2 :- Week 2, 3, and 4: Live Projects

After the skills test, interns are assigned live projects relevant to their field of expertise.

Interns work on these projects under the guidance of mentors or supervisors.

Major Requirements for the internship :-

1. Github Account
2. LinkedIn account : <https://www.linkedin.com/company/info-trixs/>
 - Post Offer Letter on LinkedIn :-Tag To INFOTRIXS. Use hashtags #infotrixs #infotrixsteam #infotrixsinternship
 - Add Experience In LinkedIn
3. Attendance
4. Task Submission
5. Join Telegram Channel :- https://t.me/infotrixs_interns
6. Instagram: <https://instagram.com/info.trixs/>

Detailed explanation of the tasks that you have to complete in the 1st week:-

Python Developer Week 1 Task:

- ❖ Build a Contact Management System

Description:

- Develop a command-line contact management system using Python.
 - Implement functionalities such as adding contacts, searching for contacts by name, and updating contact information.
 - Ensure proper error handling and data validation.
 - Implement a basic contact management system using dictionaries or lists to store contact information and simple file I/O for data persistence.
-
- ❖ Create a github repo with the name “Infotrixx”, inside that repo create a folder week1-tasks where you have to upload your files for the first project.
 - ❖ Also share the same on LinkedIn

(Note : Last Date to submit the task is 08/07/2023. We will inform you about where to submit tasks & how to share on LinkedIn on submission day.)

Thank You
All The Best
